

TEN CENTS A WEEK

New York, Jan. 6.—A cable dispatch to the Herald from Rome says that at Gesano, a town of 8,000 inhabitants in the province of Potenza, the earth opened suddenly, engulfing ten houses and shattering many others, which now threaten to fall. Many persons were buried in the ruins. Fourteen dead bodies have been recovered, and corps of engineers are at work on the ruins.

BARGAINS IN MEDICINE.

A woman once wrote us that she was not going to buy Scott's Emulsion any more because it cost too much. Said she could get some other emulsion for less money. Penny wise and pound foolish. Scott's Emulsion costs more because it is worth more—costs more to make. We could make Scott's Emulsion cost less by using less oil. Could take less care in making it, too. If we did, however, Scott's Emulsion wouldn't be the standard preparation of cod liver oil as it is to-day.

How Many Birthdays?

IN BONNIE MELROSE.

That Lively Burg Is Enjoying a Season of Social Festivities.

Melrose, Jan. 6.—Mrs. E. M. King entertained sixteen of her friends at dinner at the Bay View House on New Year's night. The table made quite a picture with a profusion of "Cloilde Souper" roses scattered over it, and the figures in artistic done in camphor leaves running down the center. The eight-course dinner was most daintily served and excellently cooked, doing the hostess and Mrs. Laughlin great credit.

At the town election held on January 2nd the following officers were elected: H. von Nozky, mayor; A. A. McRae, O. C. Husband, L. M. Baldwin, councilmen; N. E. Priest, clerk; S. Coward, collector; T. A. Birt, marshal. The town council held a special meeting on January 3rd to canvass the vote, with the above result.

The next meeting of the L. L. and D. Society will be on January 12th. Mrs. Caldwell's paper being "What Is Your Aim in Life?"

Mr. and Mrs. H. Tolles of Ansonia, Conn., have arrived, and are occupying their Oakhurst cottage.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years from rheumatism," says W. H. Howard of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

ROAD IN BAD SHAPE.

Gainesville-Hawthorn Clay Road is in Need of Repairs.

Parties coming to this city and having occasion to use the Gainesville-Hawthorn clay road, bring information that the road is in a dilapidated condition, and is growing more dilapidated every day.

This road was constructed a little less than two years ago, and has proved a great convenience to the public. If rumors are correct, the county commissioners would do well to look after the thoroughfare before it reaches a point beyond repair.

The Original.

Foley & Company, Chicago, originated honey and tar as a throat and lung remedy and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McDonald & Co.

A Serious Loss.

Col. John B. Bell, who owns a nice farm at Hagne, received information Saturday that fifty acres of velvet beans had been burned in his field. This is indeed a serious loss, since the crop was very fine, and was valued at not less than \$50 per acre.

BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without charge to all suffering with blood or skin diseases. Address

BIG SHIPMENT OF SEA ISLAND COTTON

Six Hundred Bales, Fifteen Solid Cars, From Santa Fe.

BOUGHT BY A GEORGIA FIRM

Price Was Extremely Low. It is Assorted Less Than Cost of Production—Farmers Busy Preparing Crops—Notes of Interest.

Santa Fe, Jan. 6.—The Christmas holidays are over and the farmers are busy preparing for the next crop. The outlook is indeed gloomy, owing to the scarcity of farm labor and the low price of cotton. Farm labor is at a premium here owing to the determination of the negroes to quit working on the farm and go to public work.

One would conclude that the Santa Fe section is on the map as a cotton producing section if they could have seen the amount of the fleecy staple that is being shipped from this station this week. Fifteen solid carloads is the amount that has gone forward, containing about six hundred bales. The cotton was bought by the Brantley Company of Blackshear, Ga., at a price which is considered below the price of production by the farmers. There is but little cotton left in this section now.

Messrs. A. R. Harper and Morrison, the genial music agents of the University City, have been circulating among the people here this week. They had the pleasure while here of placing one of their fine pianos in the home of D. B. Pope, and also in the home of Mr. and Mrs. W. M. Blitch.

Deputy Sheriff Granger paid our burg a visit yesterday. He was on official business.

Mrs. J. J. Godwin and children, who have been spending Christmas with her parents, Mr. and Mrs. W. M. Blitch, returned to her home at Rex Wednesday.

The public school is getting along nicely under the efficient management of Prof. J. R. Darrance.

W. B. Holder of Citronelle was visiting relatives here last week. Come again, Bloxham.

Grandpapa Futch is suffering with cold and catarrh. He was taken sick on the night of the 4th inst. His condition is not serious.

Hon. I. A. Duke is busily engaged making up his cane crop this week. He says he is late but "getting there" just the same.

A Grim Tragedy

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. The Jones-Shaylor Company.

The Jones-Shaylor Company of Jacksonville is offering to those who visit that city during the holding of the Pure Food and Industrial Exposition the greatest opportunity for bargains that any firm of that city has offered for years.

This enterprising firm has arranged with the great Harper Syndicate of Chicago for one of the greatest sales that has ever been attempted in this part of the South.

The Jones-Shaylor Company is one of the greatest dry goods houses in the State of Florida. The company has been doing business in that city for years, and has always been among the most enterprising concerns there. The members of the company have appreciated the remarkable growth of Jacksonville and kept pace with it. They have a stock of goods at their large store at the corner of Ocean and Bay streets, which is regarded as one of the best selected as well as one of the largest in the State. The business of this company has been such as to warrant the great additions which have been made in its stock during the past few years.

Mr. Jones, the senior member of the firm, is one of the young, energetic and successful business men of that great city, and the people of Gainesville and Alachua county will remember Mr. J. D. Shaylor, who formerly resided here, but who has been actively engaged in business in Jacksonville for several years.

WILL BUILD A SPUR.

Seaboard Air Line Will Run Trains to University Grounds

E. H. Ladd, of Jacksonville, is negotiating with the Seaboard Air Line for the construction of a spur for the purpose of connecting the city with the University grounds.

There should be a great deal of the material to be used in the construction of the magnificent University buildings, and the volume of traffic is expected to be tremendous during this time.

Mr. Ladd came for the purpose of surveying and arranging for a spur from the main line into the University grounds, and all material will be "dumped" immediately at the site.

Frank Richardson of Jacksonville, vice-president of the W. T. Hadlow Company, the contractors, left Saturday morning for home, after having spent three or four days here making preliminary arrangements, assisting Engineer Cox of the University in staking off the site, etc. Mr. Richardson expects to remain in Jacksonville until the middle of the coming week, and on Tuesday will be present at the meeting of the Board of Control, which will be held in that city.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

We have it on authority that Hon. Nicholas Longworth will be married to Miss Alice Roosevelt on February 17th at the White House.

If the Japanese build their own warships as well as they fight, there will be no occasion for the English to wait on the side to see if they whip Rojy.

When the knocker commences to knock, just walk away from him and let him knock the atmosphere, and he will suspect that his melancholy tale is not appreciated.

The free use of paint about the city has made a very pleasing transformation to many residences. There is nothing like paint to make the home pleasant—outside and inside.

While some are of the opinion that Senator LaFollette of Wisconsin will get snubbed, he will show them that he expects it from some sources. It only makes him fight the harder.

The feudists of Breathitt county, Ky., have completely run out of all sorts of feuds, and will give a grand ball in the hope of getting another started before the tracking snow is all gone.

It is stated that war is possible between Germany and France, because the former has ordered two hundred box-cars. If they do open up a war perhaps it will be as well to go for the French in car lots.

F. J. Reed, one of the proprietors of The St. Lucie Tribune, has withdrawn from the firm, owing to ill health. A. K. Wilson will be publisher and proprietor, and we feel sure The Tribune will lose none of its lustre.

The Twice-a-Week Sun has the best paid-up list of subscribers of any paper in Florida. This is a broad assertion, but it is a fact. Such people read their paper, for they are satisfied they have paid for the privilege.

It would be a hard matter for Andrew Hamilton's Paris physician to work up a practice in this country. He says Hamilton has "a grave affection of the nerve center." The investigation of the insurance committee has not shown it.

Some of the finest looking strawberries that have been seen in a long time were on sale a few days ago at fifty cents a box. The only trouble with the boxes was that the builders thought there was "room at the top" for the bottom.

Jakie Schiff is trying to bring on a panic by demanding a more elastic currency. If the currency could be stretched so that a dollar could be drawn out to a dollar and a half, when the demand for full value came there would be something doing.

The Florida East Coast Railroad has been successful in bringing other roads to terms, thus securing better rates for shippers of fruits and vegetables south of Jacksonville. It takes time to accomplish great ends, and the East Coast road will no doubt do all it can for the shippers along its line, as the business depends on such efforts.

LAKE CITY BECOMES FRANTIC.

Notwithstanding the fact that the Supreme Court has passed upon and decided the absolute constitutionality of the Buckman bill, which has satisfied nearly every one of the opponents of that measure, it seems that Lake City is still defiant and if the press of that city reflects the sentiment of the place, the citizens of Lake City propose to resort to questionable means to delay the college at Gainesville.

The last issue of The Lake City Citizen-Reporter, in a reckless tirade on this subject, makes the threat "The people of Lake City are determined to hold the State Agricultural College. . . . the Buckman bill and the recent decision to the contrary notwithstanding." Adding also that "the decision does not prevent further litigation. Injunctions or other processes of law can be instituted and prosecuted in the State courts and can be carried to the United States Supreme Court, as there is a Federal question involved."

Surely the people of Lake City are letting their temper run riot with their good judgment if they propose to raise the matter of race discrimination to further their personal spite in this matter.

Section 14 of the Buckman bill makes this discrimination, but we feel sure that if the matter were carried to the Supreme Court of the United States it would refuse to interfere.

What then would Lake City be benefited by such proceedings except to embarrass and delay the Board of Control in carrying out its plans?

If the citizens of that place are back of this movement and are in earnest, as this paper states, they will find that they will receive the righteous denunciation of the people of Florida—indeed they will invoke an indignation that will appal them. Come to your sober senses at once and let this matter rest before you lower yourselves deeply in the normal estimation of the people of your State.—The Florida Star.

FURNISHED ROOMS.

Every Florida city has had the same experience every year in regard to furnished rooms that we are having in our city at the present time. If the people who have furnished rooms to rent would only organize and agree on what extent rooms should be furnished, much annoyance could be avoided.

A few days ago a room hunter called and in expressing herself as to what she desired, asked if the landlady would furnish a stove, wood, etc., stopped a moment and meditated, before she objected on the grounds of there being no box-window, private entrance or Brussels carpet on the floor. She then inquired: "Do you have bed-bugs?" This was too much for the landlady, who replied: "No, you will have to furnish your own side-dishes if you are going to do light housekeeping. I can only supply the griddle greasers."

GIVE THEM ROPE.

The Buckman bill has been declared constitutional, as every good Floridian hoped it would, and yet The Lake City Reporter says that the fight is just begun and that Lake City will keep up the contention for the State University.

It is a pity that some people do not recognize the time to stop, even when it is as plain as the nose on your face, but give a fool enough rope and he will hang himself.—The Dannelion Advocate.

The Southern Express Co. traced the \$18,000 package that was stolen as far as Washington. It should never have been sent that way.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hail's Catarrh Cure. Send for circulars, free.

There is one thing certain about the welcome you receive in Gainesville, no matter whether you come from Maine, California or Kansas. If you behave yourself and are decent, you receive a hearty welcome. You don't need a title, a barrel of money or rich relatives. If you behave yourself, you are a ways welcome in Gainesville. There are lots of mighty good people in this city, and a man the other day who had been in Gainesville about six months. And he was a man who has been around the country considerable.

The farmers of Madison county are the right sort. They are into the tobacco business for money and by producing a good quality, have no trouble in disposing of their crops. A reputation for the best article grown has been established, and they have the confidence of the tobacco manufacturers to such an extent that the crop for 1905 has already been sold at a good figure.

One doctor said the other day that "we want sick folks to come down here." But the trouble is they don't stay sick very long when they get here, and do not need medicine to make them well. The pure, fresh air is better than all the medicine, and all that many people want is to know how to breathe it. Ordinary outdoor exercise should be taken with regularity.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain as far as possible ones youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair. The presence of hair on the face and scalp is a natural and healthy condition of the hair until it comes to the hair. New's Hair Dressing is the only one that does not contain any of the destructive elements of the hair. It is as effective as it is beautiful to use. Herpide makes an elegant hair dressing as well as a hair restorer. Ascertains whether there is any hair loss by leading hairdressers. Send for stamps for sample to The Herpide Co., Detroit, Mich.

OUR WEEKLY NEW YORK LETTER

Midwinter Hats of Gauzy Stuff. Modified Bandeaux a Noticeable Feature—Sweeping Plumes and Full Tulle Ruches—Bridesmaid Hats of Black Beaver and Pink Tulle.

By RENE DEVERAUX.

This is a season of evening hats, and chapeaux fluffy and soft as summer skies are a midwinter feature of theater costumes. With fashion's usual inconsistencies, as the weather grows colder headgear assumes more airy effects, cloudlike tulle ruches and long, sweeping plumes adding to the picturesque of box and restaurant parties.

Happily, as the season advances, back and side bandeaux have assumed more normal proportions, leaving the hat tilted, but a trifle more sane in appearance. Even so, however, there is still sufficient room for a superabundance of trimming, and many of the smartest evening hats have their bandeaux entirely covered with one long white ostrich feather. Short back sailor shapes fashioned of Irish crochet and other lacy materials are taking the place of the decidedly bent plateau felt, some of which are charmingly combined with fur and flowers.

Seen in a theater box last week was a straight brimmed hat of Irish crochet simply trimmed with a bunch of white algeus at the side, the back bandeau being covered with a full tulle ruche. At one side was an effective bunch of gold roses.

A strikingly smart hat worn with a French blue broadcloth was of a corresponding shade of blue felt, becoming

THE LATEST SHAPE HIGH BACK COMB.

ingly knocked up and trimmed at the side with a bunch of gold brown tips. Next the hair in front was a twist of gold brown velvet, and a cloud of gold brown tulle covered the bandeau.

At one of the week's fashionable church weddings the bridesmaids were gown in pink chiffon cloth, quaintly fashioned, their bodies draped with long lace ribbons, with ends reaching almost to the hem of the gown in front. Worn with these gowns were large black beaver hats rolled at the left side and picturesquely covered with pink tulle ruches and numbers of pink curling ostrich feathers. The flowers carried were pink carnations, and each girl wore a necklace with pendants of pink tourmalines, the gift of the bride.

While long skirts are undoubtedly making a strong bid for popularity, at many of the smart affairs of the week the short skirt was decidedly most worn. Some advanced spring gowns brought out for those who winter south are made with walking length circular skirts and exceedingly short boleros, terminating both back and front a trifle below the bust line. As a rule these short boleros are vastly more becoming than long coat effects, and for early spring wear or for southern climate are lighter and more comfortably worn.

Every one is talking of the startling hair ornaments which the opera season has brought forth. Everything from a jeweled comb to a sweeping paradise feather or a gilded quill adorns the coiffure of New York fashionables.

Dainty and chic are the little wreaths of tiny pink roses strung on wires and worn around the head in a semicircle. Some of these are made of gold or silver roses, exceedingly effective in dark tresses. Jeweled roses are quite fashionable, and where large flowers, either natural or artificial, are worn they are usually worn in pairs, one over the left ear perhaps and the other nearer the top of the coiffure.

Chamberlain's Cough Remedy the Best Made.

"In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker of Porterville, Cal. There is no doubt about its being the best. No other will cure a cold so quickly. No other is so sure a preventive of pneumonia. No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by all druggists.

Rev. Carlisle P. B. Martin, L. L. D.

Of Waverly, Texas, writes: "Of a morning, when first arising, I often find a troublesome collection of phlegm which produces a cough and is very hard to dislodge, but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." Sold by W. M. Johnson.

Appeal to Roosevelt for Woman.

Hackensack, N. J., Jan. 6.—An appeal to save Mrs. Antoinette Tolia, of this city from being hanged on Jan. 12, is said to have been sent to President Roosevelt by the Susan B. Anthony club of Cincinnati, O. In this appeal the following question was asked: "Can a woman be hanged in New Jersey for defending her honor in her own home?" The message is said to have been signed by Mrs. Sarah M. Stowers, M. D., as president of the club.

Spoiled Her Beauty.

Harriet Howard, of W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum or eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all drug stores.

HILLER NOT UNDER ARREST.

But is Being Held as a Witness in the Death of Brother-in-Law.

New Haven, Conn., Jan. 6.—With a police officer on duty at his house, A. Maxey Miller, who was detained temporarily as a witness last evening during the coroner's investigation of the death of his brother-in-law, Charles A. Edwards, of New York, was allowed to pass the night at his own residence in Temple street.

When early in the evening the coroner ordered an adjournment of the inquest for dinner, Judge Charles A. Hiller was permitted to return to the family homestead on College street where the tragedy occurred, while A. Maxey Miller was sent to police headquarters. The latter then nearly broke down from nervous excitement but two hours later had recovered his composure to a great extent.

About midnight Miller was sent to his home accompanied by two detectives and a policeman, Coroner Mix declaring that he was not under arrest, but that he was being held only as a witness and that there was no charge against him.

AUTHORESSSES WIN THEIR SUIT.

Judge's Decision Against Defendants Is Reversed.

Atlanta, Jan. 6.—A decision of Judge A. W. Fite, of the Cherokee circuit, holding that Mrs. Grace McGowan Cooke and Miss Alice McGowan, her sister, both celebrated novelists, had been guilty of a misdemeanor in closing up a roadway on their plantation in Catoosa county, has been reversed by the supreme court. Indictments had been found against these ladies on the ground that the road was a public highway, and that their act in closing it was a violation of the law. The case was appealed from Judge Fite's court, and the supreme court reviewing the evidence, held that the road was a private highway belonging to the defendants. It is said that since the decision the ladies had opened the road again.

A Thousand Dollars' Worth of Good.

A. H. Thurnes, a well-known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me \$1,000 worth of good." J. W. McCollum & Co.

Confessed to Murder.

Chicago, Jan. 6.—William J. Moran, aged 19 years, has confessed to day to the killing last night of Robert Collier, aged 17, during a quarrel. Moran said he placed Collier's body on the railroad track in the hope that a passing train would take evidence on the crime. The accidental discovery of the body before the train had passed disclosed the fact that Collier had been killed by a shot of bullet. Fifteen witnesses, including the police, were present when Moran was taken into custody. One of them was Moran's father, who was found in a state of collapse.

A Bit of Westmoreland.

The Westmoreland hills are the remains of an infinitely older world—giants desecrated, but of a great race and ancestry. They have the finish, the delicate or noble loveliness one might almost say the manner—that comes of long and gentle companionship with those chief tones that make for natural beauty, with air and water, with temperate suns and too abundant rains. Beside them the Alps are inhuman, the Apennines more forest grown heaps, mountains in the making, while all that Scotland gains from the easy enveloping glory of its heather Westmoreland, which is almost heatherless, must owe to an immensity of fine strokes, tints, curves and groupings, to touches of magic and to lines of grace, yet never losing the wild energy of precipice and rock that belongs of right to a mountain world—Mrs. Humphry Ward in Century.

The Arab Steed.

An Arab steed of pure breed would probably be outpied in a race by an English thoroughbred, but in other respects it outshines its western rival. It is so docile that it is treated by its owner as one of the family, and it has an inborn constitution, for it sleeps out at night without covering or shelter.

Nature protects the Arab horse with a thick, furry coat, which is never touched by brush or comb and which falls off at the approach of spring, when the body and legs, which had been shaggy as those of a bear, again resume their graceful beauty and gleam in the sun like polished marble.—London Chronicle.

WONDERS OF SLEEP.

The Effects of Slumber Upon the Brain and the Heart.

"Shakespeare" said a scientist, "tailed sleep the age of death. That is a striking name for a striking thing. Sleep is a wonderland. Let us explore it."

"Self hypnosis is a mysterious force that we can exercise on ourselves in sleep alone. We are all self hypnotists. We all, on certain nights, tell ourselves firmly that we must not oversleep that the next morning at 4, at 5 or 6 precisely we must wake up. And we do wake up. Our sleeping selves respond to the hypnotic suggestion made the night before by our waking selves. That is mysterious and striking, isn't it? Still more mysterious and striking, though, is the fact of our keeping track of the time somehow in our slumber. How on earth do we do this?"

"It is impossible to do without sleep. Men have slept standing, walking, even running. They have slept in battle, under fire, with guns roaring on all sides. They have slept in unendurable and deadly pain."

"There is no torture equal to that which the deprivation of sleep entails. The Chinese are the cruellest folk on earth and the most ingenious of torturers. Well, the Chinese place the deprivation of sleep at the head of their torture list."

"Sleep is a state of rest. The heart rests in sleep. The heart is a rhythmic muscle, not one that never ceases, but one that works at short shifts, like a pebble, a moment on, a moment off. Well, when we sleep the heart's shifts of rest are redoubled. It works, then, one on, two off, getting, indeed, pretty nearly as much repose as we do."

"The brain in sleep becomes pale and sinks below the level of the skull. When we are awake the brain is high and full and rosy."

"Not only the brain and heart, but even the tear glands, rest in sleep. That is why when we awake we always rub out eyes. The rubbing is an instinctive action that stimulates the stagnant tear glands and causes them to moisten properly our eyes, all dried from their inaction."—Buffalo News.

Cured Lumbago.

A. B. Canham, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another, then different ointments and liniments, gave it up altogether. So I tried once more and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of sufferers." Sold by W. M. Johnson.

Lost the Prize.

James Crossley, a hotel English bistroman, had him one memorable day to a bookstall in a shaded market and, spying a little volume, took it up and glanced carelessly through it. After awhile he asked its price from an old woman and was told it was two and sixpence. "I'll give you sixpence for it," said Crossley. "Nay," replied the poor old dame, "it cost me 2 shillings." Whereupon our book devotee threw it down in disgust and retired. A gentleman, overhearing the altercation, stepped forward and purchased it at the sum demanded. Crossley returned soon after and, finding the book had gone, anxiously inquired what had become of it. "Sold," answered the woman, "for what you refused to give." "Tell me who bought it, and I'll give him 10 shillings for it," said Crossley eagerly. The moral is self evident.

Stomach Troubles and Constipation.

"Chamberlain's Stomach and Liver Tablets are the best thing for stomach troubles and constipation I have ever sold," says J. R. Callman, a druggist of Porterville, Mich. "They are easy to take and always give satisfaction. I tell my customers to try them and if not satisfactory to come back and get their money, but have never had a complaint." For sale by all druggists.

A Ray of Light.

The straightest thing in nature or art is a ray of light when passing through a medium of uniform density. Hence the eye is enabled to test the straightness of an edge or tube by holding it as nearly as possible coincident with a ray of light, such parts as depart from straightness then intercepting a ray and causing a shade to be cast upon other parts. It is not known at what early period in the history of mankind the discovery was made that straightness could be thus determined. It is certain that thousands of mechanics use the method daily without being able to give a rational explanation of it.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and best remedy for coughs, colds I have ever used." Sold by W. M. Johnson.

A DELIGHTFUL FUNCTION.

Misses Hampton Gave Dance Complimentary to Miss Nell Broward.

One of the most enjoyable events of the season among the young society set was the dance tendered by Misses Minna and Katherine Hampton at the Dormitory, complimentary to their friend, Miss Nell Broward, of Fort George, who has been here for several days as a guest of the young ladies.

There were sixteen couples present and the program comprised twelve numbers and four extras. At the conclusion of the dance the party repaired to the Hampton home, where delicious refreshments were served.

Miss Broward has made many friends here, all of whom will regret very much her departure.

Mr. Adams Badly Hurt.

The condition of Wm Adams of Windsor, who was run down by a bicyclist at the corner of West Main and Union streets Friday, is more serious than was at first supposed.

Mr. Adams was not able to return to his home Friday and went to the home of his friend, C. A. W. Thomas in this city. It was thought that a knee-cap had been shattered, but investigation showed only severe bruises.

The victim suffered considerably through the night, but returned to Windsor Saturday.

The officers have so far been unable to ascertain the name of the rider, whom Mr. Adams states was a white boy about twelve years of age.

Badly Shattered Engine.

Engine No. 513 of the Atlantic Coast Line passed through the city yesterday en route to the repair shops of the system at High Springs. This engine was considerably damaged, caused by a collision near Croom, on the Florida Southern division. The pilot or "cow-catcher" was completely demolished and the heavy iron supports to the boiler were broken. The locomotive was under her own steam, however.

Took the Buns.

A bakery wagon was the victim of a lot of black kids yesterday morning. The load of baked goods consisted in part of some warm buns that had been made a special order, and while the driver went into the house to ascertain how many were desired, leaving his wagon alone, the hungry kids made a raid and captured every bun. It was a clean sweep and there were none to replace the loss.

The fine residence of Dr. Hodges on East Main street, North, has been recently painted by Holly & Davis, decorators and painters, and the blending of the colors used makes it a very attractive piece of work. A close inspection shows that the paint is spread nicely, and it looks as though the woodwork was lately polished for the work. But when it is known that the paint was spread over old paint, many have inquired "What paint is used?" The point is the Davis 100 Per Cent Pure, a proper mixture of lead and zinc, which makes it put on a beautiful finish and also withstand the elements better than any other used in this country. It is sold in Gainesville by the Baird Hardware Co.

There is but one key to fit the money box at Marcus Endel's. If you trade a dollar's worth you get a key. If you trade ten dollar's worth you get ten keys. You get your money's worth in goods, besides a chance at the money in the box.
